## Songs

Learn slowly to build vocabulary. Go slow and absorb as much as you can.

## Skills

Things you should know at your level. Use pen and paper — don't miss anything important.

## Exercises

Builds fluency and muscle memory. Repeat often rather than practice long. Consistency is everything.

## • Beginner

**Beginner** — You're laying the foundation. Focus on learning the notes, understanding the number system, and getting your hands comfortable with basic scales and chord shapes. Don't rush — every detail you absorb now will accelerate your growth later.
